

Center for Molecular Biophysics  
Proposed Experiment Form

Name: \_\_\_\_\_

Undergrad, Graduate Student, or Postdoc: \_\_\_\_\_

PI/Lab: \_\_\_\_\_

Department: \_\_\_\_\_

Brief description of your system (e.g., protein, nucleic acid, small molecule):

Brief description of proposed experiment (or, if you don't know exactly what you want to do, tell us what you hope to learn):

Common limiting factors in biophysical experiments are concentration and purity. Tell us the concentration and purity of your sample. (Attach a gel if you have one)
