

# Making Neuroscience Fun

A Brain Awareness Program for All Ages

Brain Health: It's SPECTacular

## Activities Summary

### Lots of Ways to Learn (🧠 A Cognitive Health Story) (2<sup>nd</sup> Grade – 7-8 yrs.)

#### #1-Video: All Animals Learn

- Students watch a video about orphaned chimpanzees to understand how all animals can learn.
- Approx Time: 10-15 mins
- Story Connection: Slide 2

#### #2-Experiment: States of Matter

- Students experience learning by doing in this hands-on experiment.
- Approx Time: 25-30 mins
- Story Connection: Slide 7

#### #3-Think, Pair, Share: Learning New Things

- Students think about new things they want to learn about and complete a learning ladder plan.
- Approx Time: 20-25 mins
- Story Connection: Slide 11

#### #4-Game: What's Your Style?

- Students play a game where everyone wins and learns more about their learning style.
- Approx Time: 20-25 mins
- Story Connection: Slide 12

#### #5-Skit: Will You Please Help Me?

- Students collaborate to act out various scenarios that involve asking for help.
- Approx Time: 30-35 mins (can easily be split over multiple days)
- Story Connection: Slide 13
- Partner or Group Activity
