

Making Neuroscience Fun

A Brain Awareness Program for All Ages

Brain Health: It's SPECTacular

Activities Summary

Why Can't I Remember? (🧠 A Cognitive Health Story) (3rd Grade – 8-9 yrs.)

-  **#1-Experiment: Refresh Your Memory**
 - Students explore several memory experiments and activities to test their skills.
 - Approx Time: 30-35 mins (for all three activities in experiment)
 - Story Connection: Slide 5

-  **#2-Demonstration: Do YOU Learn How I Learn?**
 - Students review learning styles and ways to make learning more fun for them.
 - Approx Time: 25-30 mins
 - Story Connection: Slide 7

-  **#3-Think, Pair, Share: Real-World Problem Solving**
 - Students collaborate to solve above grade level problems by using what they know and THINKING.
 - Approx Time: 15-20 mins
 - Story Connection: Slide 8

-  **#4-Physical Activity: From Boring to Brilliant**
 - Students learn a variety of strategies to take tasks from boring to brilliant.
 - Approx Time: 15-20 mins
 - Story Connection: Slide 10

-  **#5-Worksheet: Making Sense at School**
 - Students transform hard to learn tasks into fun activities by using their five senses.
 - Approx Time: 25-30 mins
 - Story Connection: Slide 16
